Mahfozur Rahman

Full-Stack Software Developer

.NET (C#, ASP.NET Core) · Angular · SQL Server · Azure · Docker

Dhaka, Bangladesh +880 1758 091506 mahfozmt@gmail.com
linkedin.com/in/mahfozmt Microsoft Certified (MCSD) 6 Years Experience

PROFESSIONAL SUMMARY

Full-Stack Software Developer with **6 years of experience** designing, building, and shipping enterprise SaaS and line-of-business applications with **C#, ASP.NET Core, Angular, and SQL Server / PostgreSQL**. Currently developing **BizTRAQ**, a cloud-based business information platform on Microsoft Azure (document management, workflow automation, e-signatures, AI-ready data) used by US businesses across healthcare (HIPAA), fuel distribution, and case management. Experienced across the full software development life cycle: requirements analysis, database design, REST APIs, data-rich Angular front ends, mobile apps (Flutter, Xamarin), unit and integration testing, code review, GitHub Actions CI/CD, and Docker-based deployment. Turns complex business requirements into clean, maintainable, performance-optimized software.

CAREER HIGHLIGHTS

- Contributing full-stack features to **BizTRAQ**, a modular platform offering 10 pre-built business solutions (CRM, HR, Contract, Case, Asset Management) and a **HIPAA** compliance module for US clients.
- Set up **GitHub Actions CI/CD** deploying a .NET 8 document-processing service to **Azure App Service**, and containerized it with **Docker**.
- Architected the .NET 6 back end of the **LivingHub** utility management SaaS using **CQRS**, Hangfire, and Docker/Nginx on Linux, and shipped its Flutter Android app to the Google Play Store.
- Improved production database performance at GSA by tuning SQL queries and stored procedures and automating data processing with SQL Server Agent jobs.
- Delivered systems that run live in production: the **AutoGuard** GPS vehicle tracking system (Bangladesh) and an event management platform for **Strictly FX** (USA).

TECHNICAL SKILLS

Languages	C#, TypeScript, JavaScript, SQL (T-SQL, PL/pgSQL), HTML5, CSS3
Back End	.NET 6+, .NET Core, .NET Framework, ASP.NET Core, ASP.NET Web API (REST), ASP.NET MVC, ASP.NET Web Forms, Entity Framework Core, ADO.NET, Hangfire, Windows Services
Front End	Angular (2+), AngularJS, Angular Material, Kendo UI for Angular & jQuery (Telerik), SlickGrid, RxJS, jQuery, Backbone.js, Underscore.js
Databases	Microsoft SQL Server, PostgreSQL, Database Design, Stored Procedures, Query Optimization, SQL Server Agent Jobs
Mobile	Flutter (Android, WebView / PWA), Xamarin, Google Play Store Publishing
Architecture	CQRS, MVC, Layered / N-Tier Architecture, RESTful Services, RBAC, Workflow Engines
Testing & Quality	Unit Testing, Integration Testing, Code Review, Debugging, Software Maintenance
DevOps & Cloud	GitHub Actions (CI/CD), Azure App Service, Azure Blob Storage, Docker, Docker Compose, Nginx, Linux, IIS, Git, GitHub
Security	Two-Factor Authentication, Role-Based Access Control, Audit Logging, HIPAA Compliance
Integrations	Google Maps API, Firebase Cloud Messaging (FCM), Twilio SMS, Mailgun

PROFESSIONAL EXPERIENCE

Software Developer

Aug 2023 – Present

COBAIT · BizTRAQ platform for Triulta (Houston, TX, USA)

Dhaka, Bangladesh (Hybrid)

- Develop full-stack features for **BizTRAQ**, a cloud business information platform that unifies documents, records, emails, and workflows into a single source of truth, replacing tools such as SharePoint, OneDrive, and monday.com.
- Build .NET back-end services and REST APIs on Microsoft SQL Server with Entity Framework, contributing to core modules including **BizDRIVE** cloud storage, **BizTRAQ Libraries** structured records, and configurable workflows and approvals.
- Engineer data-dense Angular interfaces with Angular Material, SlickGrid, and Kendo UI for configurable fields and layouts, custom pipelines, record grids, and real-time dashboards and reporting.
- Deliver platform capabilities such as document routing and e-signatures, role-based access control, audit trails, and notifications, including for healthcare clients with **HIPAA** requirements.
- Built **two-factor authentication** (Email/SMS OTP) across the stack with hashed codes, expiry, lockout, and

per-tenant policies; secured file access with short-lived Azure Blob SAS URLs.
- Built the platform's .NET 8 **document-processing service** (viewing, editing, conversion, OCR) and containerized it with a multi-stage Dockerfile and Docker Compose.
- Write unit and integration tests, review pull requests, debug production issues, and provide technical support.
- Set up **GitHub Actions** CI/CD to **Azure App Service** with OIDC sign-in and PowerShell steps.

Tech: .NET 8, C#, Entity Framework, SQL Server, Angular, Kendo UI, Azure App Service, Azure Blob, GitHub Actions, Docker

Software Consultant (Part-Time)
Aug 2023 – Present

LivingHub Technologies *Mohakhali DOHS, Dhaka*

- Provide ongoing technical consulting: architecture guidance, enhancements, and production support.

Software Engineer
Jan 2023 – Aug 2023

- Architected the .NET 6 back end of **LivingHub**, a cloud SaaS that automates building utility management, including accounting, service-charge collection, and expense tracking, using PostgreSQL and EF Core.
- Applied the **CQRS** pattern to separate command and query paths, improving read performance and maintainability.
- Automated recurring updates and notifications with **Hangfire** scheduled background jobs.
- Led containerization with Docker, Docker Compose, and persistent volumes, deploying behind Nginx on Linux; built Angular front ends with Kendo UI.
- Built and published the **LivingHub Android app** (Flutter) to the Google Play Store.

Tech: .NET 6, C#, PostgreSQL, EF Core, CQRS, Hangfire, Docker, Docker Compose, Nginx, Linux, Angular, Kendo UI, Flutter

Software Engineer
Nov 2022 – Jan 2023

Global Software Architects (GSA) *Dhaka, Bangladesh*

- Optimized slow SQL queries and stored procedures, noticeably reducing production response times.
- Designed and managed SQL Server Agent jobs for reliable, scheduled data processing.
- Reviewed and merged GitHub pull requests and deployed builds to the test server; built ASP.NET Web API endpoints and Windows Services.
- Mentored junior engineers on code quality, SQL practices, and the team's release workflow.

Junior Software Engineer (.NET)
Oct 2020 – Oct 2022

- Designed SQL Server tables, stored procedures, and ASP.NET MVC components for the AutoGuard vehicle tracking system and the Strictly FX event management platform.
- Built reporting features with export to PDF, CSV, and XLSX for operational users.
- Developed features for the AutoGuard **Xamarin** mobile app and extended a Microsoft Dynamics solution with custom .NET Windows Services.
- Debugged and resolved defects to keep live systems stable; used SourceGear Vault and Git.

Tech: C#, ASP.NET MVC, ASP.NET Web API, ASP.NET Core, ADO.NET, Microsoft SQL Server, Windows Services, Xamarin, Angular 8, Backbone.js, Git

PROJECTS

BizTRAQ – Business Information Platform biztraq.com
Cloud platform on Azure: BizDRIVE storage, workflows, e-signatures, HIPAA module, AI document insights.

LivingHub – Building Utility Management SaaS livinghub.tech
Containerized, CQRS-based SaaS for building billing and expenses, plus a Flutter Android app on Google Play.

AutoGuard Tracking – Vehicle Tracking System autoguardtracking.com
Live GPS vehicle tracking system in Bangladesh: web and Xamarin mobile apps, real-time maps, alerts.

Enterprise Event Management Suite – Strictly FX (USA) strictlyfx.com
Full suite of enterprise apps for a world-touring special-effects company: shows, crew, logistics, permits.

CERTIFICATIONS & TRAINING

Microsoft Certified Solutions Developer (MCSD) – Microsoft **Nov 2020**
Exam 70-486: Developing ASP.NET MVC Web Applications · MCID: 990525782

Full Stack ASP.NET Core – PencilBox Training Institute (96 hours) **Jun 2022 – Oct 2022**
Architecture, routing, validation, security, error handling, logging, testing, Angular · Cert. No. FSTASP/009/003

LinkedIn Skill Assessment: C# **Passed**

EDUCATION

Professional Diploma in Enterprise Systems Analysis & Design (C#.NET) **2019 – 2020**
IsDB-BISEW, delivered by People-N-tech Limited, Dhaka · 1,100 hours

Bachelor of Arts (Honours), Islamic Studies **2017**
National University, Bangladesh · CGPA 3.23 / 4.00
